SUMMARY

Results-oriented Computer Science Engineering student skilled in **Core Java, OOPs, DSA, DBMS, and web technologies.** Proficient in **debugging, problem-solving, and building efficient software solutions** through academic and personal projects in collaborative team environments.

PROJECTS

1. Convo – Real-Time LAN Messaging & Social Platform

(formerly developed as Walkie-Talkie P2P Messenger)

(Node.js, Express.js, Socket.IO, JavaScript, Multer) — October 2025 – April 2026

- Developed a real-time LAN communication platform, evolving it from a basic P2P messenger into a social platform with shared feeds.
- Implemented Socket.IO-based duplex communication for live chat rooms, instant messaging, and real-time content updates.
- Integrated local file sharing and media upload functionality using Multer and Express middleware for seamless user interaction.
- Designed a responsive and lightweight interface optimized for smooth communication across local network environments.

GitHub Repository

---

2. CompileX – AI-Powered JavaScript Compiler

(HTML, CSS, JavaScript, Judge-API, Node.js, Express.js) — *May 2025*

- Built an offline JavaScript compiler with AI-driven code suggestions, real-time error explanations, and debugging assistance.
- Designed an intuitive interface for efficient code execution and improved developer productivity.

GitHub Repository

---

3. IOCL Fuel Station Locator – Web-based Navigation & Review System

(HTML, CSS, JavaScript, PHP, MySQL, XAMPP) — *March 2025*

- Created a geolocation-based platform to locate fuel stations and manage user reviews using PHP and MySQL.
- Optimized search and database queries for faster station lookups and better scalability.

GitHub Repository

TECHNICAL SKILLS

Languages: Java (DSA), C, C++, Python, JavaScript, SQL
Tools & Technologies: MySQL, Git & GitHub, XAMPP, VS Code
Frameworks & Web Technologies: Node.js, Express.js, Spring Boot, REST APIs, Socket.IO
Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Adaptability

EDUCATION

Dronacharya College of Engineering | *Gurugram University* — ***Gurugram, India***
Bachelor of Technology – Computer Science & Engineering – Percentage: **76%**| — *2022 – 2026*
Relevant Coursework: Data Structures, Algorithms, Database Management Systems

Kendriya Vidyalaya, Sector 5 Dwarka | *Central Board of Secondary Education* — ***New Delhi, India***
Class XII – Senior Secondary: **76%** | — *2022*
Class X – Secondary: **80.4%** | — *2020*

CERTIFICATIONS

- NPTEL – Programming in Java (Elite Certification, IIT Kharagpur) – 92% [Link]
- NPTEL – Data Structures and Algorithms using Java (IIT Kharagpur) [Link]
- Java Certified Foundations Associate: Basic Elements [Link]
- Master Java Programming Quiz – *SkillEcted Campus Program* [Link]
- Programming Foundations: Beyond the Fundamentals – *LinkedIn Learning* [Link]
- Programming Foundations: Fundamentals – *LinkedIn Learning* [Link]
- Career Essentials in Software Development – *Microsoft & LinkedIn* [Link]

EXPERIENCE

Internship Experience

Indian Oil Corporation Limited (IOCL) [Link]
Intern | Noida | July 2025 – Sept 2025

- Contributed to the development and enhancement of internal web applications to streamline departmental workflows.
- Designed dynamic front-end modules and integrated backend APIs for secure data handling and performance optimization.
- Assisted in database management, debugging, and feature testing to ensure efficient and reliable system operations.
- Collaborated with senior developers to refine workflows and automate repetitive processes for improved productivity.

ACHIEVEMENTS & INTERESTS

- Solved 80+ DSA problems across **LeetCode, GFG, and HackerRank** to build strong problem-solving skills.
- Selected as NSS Volunteer to attend the Hon'ble PM's Independence Day Address at Red Fort (2023) [Link]
- **Interests**: Problem Solving, Debugging, Software Development.
